

## Unique & Niche, Antibody & ELISA

**IBL Newsletter**  
Summer in 2020

Dear Valued Customers,

We hope this newsletter finds you well and you are having a nice summer time although we are facing big challenges including a difficulty of meeting and gathering people in this exceptional period with COVID-19. As you may know that many international congresses and shows were cancelled or postponed because of the issue, so now we need to find new ways to achieve our common goal “finding the keys for saving people from diseases”.

IBL has been trying to find new approaches for continuously working together among people who are working in life science fields by utilizing new technologies such as “Virtual Shows”.

### ❖ Exhibited at the Virtual AAIC 2020

IBL successfully exhibited at the virtual show of AAIC (the Alzheimer’s Association International Conference) 2020. IBL has been focusing on research and development in Alzheimer’s disease (AD) since 1995. We have [a comprehensive ELISA and Antibody products line up](#) which detect important proteins in relation to “the Amyloid Hypothesis”, such as Amyloid-beta Precursor Protein (APP), Amyloid $\beta$  and Tau.

We presented the White Paper about “[Trend of Toxic Amyloid \$\beta\$  Oligomer Hypothesis](#)” at the show as well.

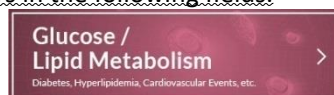

### ❖ New Product Release: Total / Intact AGT Kits for Mouse and Rat

Angiotensinogen (AGT) is a useful biomarker for research in relation to the Renin-Angiotensin-Aldosterone System (RAAS). The following mouse and rat Total / Intact AGT assay kits are available now in addition to [Human Total AGT \(#27412\)](#) and [Human Intact AGT \(#27742\)](#) Assay kits.

[Mouse Total AGT \(#27103\)](#)    [Rat Total AGT \(#27104\)](#)  
[Mouse Intact AGT \(#27105\)](#)    [Rat Intact AGT \(#27106\)](#)

We also have unique biomarkers in the following fields.

We would also like to express thank you for all medical professionals who are fighting with COVID-19. Have a great rest of summer time and stay safe from COVID-19.

With best regards,

IBL Sales and Marketing Team
